EXPERIENCE

Edubiz Networks – Remote

Full Stack Developer Intern   *Jun 2025 – Present*

1. Built scalable web pages and features collaborating in an agile team environment.
2. Utilized Next.js, Tailwind CSS, and TypeScript to develop modern, interactive UI components.
3. Enhanced website visibility through technical SEO and optimized on-page elements in Next.js.
4. Worked with CMS for efficient content management and backend support.
5. Integrated external APIs and services to enhance web application functionality.
6. Ensured website performance, security, and usability.

Projects:

1. Edubiz Networks (*https://edubiznetworks.com*)
2. Surelink (*https://surelink.edubiznetworks.com*)
3. spottlite (*https://spottlite.edubiznetworks.com*)
4. Boostup (*https://boostup.edubiznetworks.com*)

Web Developer Intern   *Mar 2025 – May 2025*

1. Collaborated to design and build a responsive website.
2. Wrote clean code using HTML, Tailwind CSS, JavaScript, Next.js.
3. Applied best practices for performance and mobile optimization.
4. Engaged in code reviews to improve quality and skills.

PERSONAL PROJECT

Attendox (https://attendox.bikashcodes.online, https://github.com/Bikashpradhan-2004/Attendox)

A comprehensive attendance management system has been developed using Next.js, Supabase, and Drizzle ORM. This system improves tracking Student Attendance, as well as making processes easier for Adding, Updating, Deleting and Managing student records. In addition, Secure Authentication and simple-to-use workflows are in place. Monthly Attendance Reports include Dynamic Attendance Tables to allow tracking of both daily and monthly attendance. Visually Interactive Dashboard that displays Monthly Attendance Percentage, as well as Insights from the last 7 Days using Charts has also been developed. Exporting Student List Data in PDF format is also supported so Institutions can conveniently share their data and create Reports.

ADDITIONAL

Technical Skills: HTML, Tailwind CSS, JavaScript, TypeScript, Next JS, React JS, SQL, C, C++, SAP ABAP
Tools & Technologies: Git, GitHub, GitLab, VS Code, Drizzle ORM, Supabase, SAP NetWeaver
Soft Skills: Teamwork, Leadership, Problem-solving, Time Management
